HMF to Launch DIB-R6 SMART TETRA Outdoor Base Station at CCW 2026

Bad Mnder, 19. May 2026

Official Presentation in London on June 16, 2026

HMF Smart Solutions will unveil its new DIB-R6 SMART TETRA outdoor base station at this year's Critical Communications World (CCW) in London. The official presentation will take place on Tuesday, June 16, 2026, at 12:30 p.m. at the HMF exhibition stand F20. Journalists and industry media representatives are warmly invited to attend.

With the DIB-R6 SMART, HMF Smart Solutions expands its ACCESSNET®-T portfolio with a compact and high-performance outdoor TETRA base station for mission-critical communications. Designed for demanding deployment scenarios, the solution particularly addresses applications in public safety, industry, energy supply, and public transportation.

The new base station combines advanced multi-carrier and SDR technologies with a robust and compact design and has been consistently engineered for flexible deployment in critical communication infrastructures. Key features include outstanding performance and high energy efficiency, flexible carrier configurations, and comprehensive cybersecurity functions in line with latest European and international standards.

"The launch of the DIB-R6 SMART at CCW demonstrates HMF's commitment to the TETRA technology – both now and for the next decades to come. We are excited because this base station is essential for the era of converged solutions. With this unique TETRA outdoor base station, we are moving straight to further reduce the total cost of ownership (TCO) for TETRA networks" says CEO Martin Hucke.

About HMF Smart Solutions

HMF Smart Solutions (HMF), based in Bad Münde, Germany, has been developing and implementing customised, critical communication solutions in the field of professional mobile radio for more than 40 years. HMF is a well-known specialist in technologies such as TETRA and LTE/5G and offers highly available and secure radio communication solutions for industrial, utility and transport companies, the oil and gas industry as well as security and emergency services, among others. HMF regards itself as a holistic solution provider whose core expertise is comprehensive project support from a single source – from development and planning to implementation, including services and network operation.
